

E05

Smart Badge • User Guide

A small screen you wear
Fits every moment you want to show

Meet E05

Small in size, big on expression.

E05 is a badge that truly “lights up.” A color screen, swappable designs, and a light, comfortable feel.

HD color screen

Custom photos, anime art, your own DIY designs — change anytime.

Low power, long battery life

Type-C charging — one full charge lasts all day.

More than a display

Notifications, calculator, timer, business card — all fit on this small screen.

Light and portable

Clip it to clothes or a bag — wherever you go, it lights up.

What's in the menu

Every icon has its own job.

Swipe down for the menu, swipe sideways to switch photos or videos — the icons handle the rest.

Leaf • Auto sleep

After 10 minutes idle, choose whether the screen stays on or sleeps.

Link • Share between devices

One taps “Share photo,” the other taps “Wait to receive.”

Brightness • Screen dimming

Tap to switch, find the level that feels right.

Trash • Delete photo

Swipe to find the photo, then tap to delete it.

Volume • Adjust sound

Turn it up, down, or mute with one tap.

Flashlight • Cheer light

Tap to flash and pulse, swipe up/down to change color.

Function icons, tap to open

Handy tools, all included.

Tap the function icons in the main menu — mirrored camera, timer, calculator — whenever you need them.

Camera

Mirror your phone screen for photos, hands-free.

Controller

Control your phone, right at your fingertips.

Countdown

Set a timer so you never miss a moment.

Business card

Show your contact card — introductions made easy.

Calculator

A pocket calculator, ready whenever you need it.

Getting started

Connect in seconds.

Download the app, pair the device, and let E05 take it from there.

1

Download the “Zrun” app

Scan the QR code — opens in any browser or WeChat.

browser scan

2

Find your device

Press the Bluetooth button briefly to enter pairing mode, then tap “Add device” in the app and select it. Press and hold the Bluetooth button to lock or unlock the screens.

3

Complete pairing

Confirm the pairing prompt — the Bluetooth icon turns green when connected.

Troubleshooting

Don't worry — most issues take one step to fix.

1

Bluetooth won't connect

Restart the device and app, pair again, and make sure phone Bluetooth is on.

2

Content not showing

Re-upload the file. If storage is full, clear some older content first.

3

Buttons not responding

Hold the power button for 10 seconds to force a restart.
